Punjab Land Acts, Volume II (1934 edition).
Land Revenue Rules. .
Pages 3 and 4.

For notification no. 1324-R., dated 26th June 1925, the follow-
ing should be substituted :—

The 8th August 1934.

No. 2825-R. Notification.—In supersession of Punjab Govern-
ment notification no 1324-R., dated the 26th June 1925, and in
exercise of the powers conferred by sub-section (1) of section 88 of
the Land Revenue Act, XVII of 1887, the Governor in Council is
pleased to direct that, with effect from the 8th August 1934, the
following scale of fees shall be—

(b)

210 01 01—1-10-31—18-08-34

(c)

- (c) the average price obtainable by agriculturists for each of the crops referred to under clause (b) ; and
- (d) the actual share of the gross produce received by landowners in the case of crops which are divided and the rent payable on zabti crops.

From the first three of these factors an estimate shall be made of the value of the annual gross produce of the estate or group of estates in question.

From that estimate and the fourth factor an estimate shall be made of the annual value of the landowners' share of that produce or net assets

2. (1) The most important classes of cultivated land are as follows.— Classes of land.

- (a) *barani* : dependent on rainfall ;
- (b) *sailab* : flooded or kept permanently moist by river ;
- (c) *abi* : watered by lift from tanks, *ghuls*, streams, or by flow from springs ,
- (d) *nahr* : irrigated by canals by flow or lift ; and
- (e) *chahi* . watered from wells.

(2) The most important classes of uncultivated land are as follows.—

- (a) *banyar jadid* : land which has remained unsown for four successive harvests ;
- (b) *banyar qadim* : land which has remained unsown for eight successive harvests ; and
- (c) *ghair mumkin* . land which has for any reason become unculturable, such as land under roads, buildings, streams, canals, tanks, or the like, or land which is barren sand, or ravines.

3. The acreage to be used in the estimate shall be the average Average matured area of the selected years. These years will be the cycle or acreage. period of years of which the harvests are a fair sample of the ordinary fluctuations characteristic of the agriculture of the tract.

4. The prices to be adopted in the estimate shall be the average Prices to be prices which are likely to be obtained for their crops by agriculturists adopted. during the coming settlement, but shall be based on the average of a sufficiently long period in the past, and it shall be assumed that the range of future prices will not be di-similar. The prices prevailing in years of famine or severe scarcity shall be excluded from the calculation.

The prices adopted for each crop shall be based on the prices current in the month in which the agriculturists of the tract ordinarily dispose of their produce. If in any estate or group of estates it is found

- (c) shopkeepers' books in selected villages,
- (d) harvest prices for each assessment circle reported by the field kharungs for entry in the circle musterbooks,
- (e) harvest prices published in the Gazette,
- (f) prices of grain in markets, and
- (g) prices obtained by estates under the Court of Wards and by large proprietors for their produce.

Average yields.

5. In estimating the average yields of each crop on the different classes of land in an estate or group of estates, the Revenue Officer shall be guided by the results of

- (a) experimental cutting;
- (b) his own observations;
- (c) information gathered from trustworthy persons;
- (d) accounts of landowners, where obtainable, e.g., accounts of estates under the Court of Wards and of farms maintained by the Department of Agriculture; and
- (e) yields assumed for similar tracts elsewhere.

Menials' dues and expenses of collection.

6. In estimating the actual share received by landowners of the gross produce, calculated in accordance with the preceding rules, the value of any portions of that produce paid, before it is divided, to artisans or menials for help in tillage, or harvesting or for the supply and repair of agricultural implements, or for any other work subsidiary to agriculture, and any expenses of collection of rent paid out of the common heap, shall be deducted.

Tenants' share.

on
tior
be
instructions contained in rule 7.

Adjustments to be made.

7. (a) In the absence of a contract to the contrary, land revenue is payable by landowners, and water-rates by tenants. In case where tenants pay a certain proportion of the land revenue, or landowners of the water-rates, a corresponding addition to, or deduction from, the estimate shall be made;

(b) Where means of irrigation and embankments are maintained by a tenant at his own expense, no deduction shall be made from the estimate on this account. If, however, any part of the cost of such maintenance is borne by the landowner, a corresponding deduction shall be made from it;

(c) Where the cost of all or any part of the seed or manure used on the land is borne by a landowner, and is not counterbalanced by either the receipt by him of a larger share of the produce, or a smaller allowance of fodder to tenant than is customary, or the like, a corresponding deduction shall be made from the estimate;

(d) Where a landowner provides, at his own cost, improved agricultural implements for the use of his tenants, and makes no charge for the use thereof, whether in the way of a larger share of the produce, or otherwise, a corresponding deduction shall be made from the estimate;

(e) Concessions with regard to fodder ordinarily take one of the following forms:—

- (i) a specified area per pair of bullocks or some similar unit of area is devoted by a tenant to the raising of fodder crops of which the landowner receives no share;
- (ii) a tenant is permitted to cut certain crops green for fodder and the landowner receives nothing on account thereof; or
- (iii) the landowner takes either no share of fodder or only a share of the grain of certain crops. In any of these cases, or in any other case in which a landowner permits the use for fodder by his tenants of crops grown on his land, and takes either no share thereof, or a share smaller than that of the grain, a corresponding deduction shall be made from the estimate;

(f) Where a landowner employs paid agency at his own expense to collect his share of produce, a corresponding deduction on account of the cost of that agency shall be made from the estimate;

(g) Where a landowner advances monies free of interest to his tenants for agricultural purposes, a deduction on account of the interest due on such advances shall be made from the estimate.

The rate of interest to be allowed in making such deduction shall not be lower than that allowed by the local Central Co-operative Bank on deposits made with it, or higher than that charged by the same bank on loans advanced by it.

8. A second estimate of net assets shall also be framed on the basis Estimate of

- (a) the existence in any circle of a system of cash rents on a sufficiently large scale to enable them to be used as a guide in estimating the renting value of the remainder of the land of the circle; and

- (f) the prescription in the revenue records of such distinctions of soil and class as are usually accompanied by marked differences of renting value

Abnormal
rents.

9. All rents which are not true economic rents, and are not based on the prevailing rent-rate or the average rate actually paid on any class of land, shall be excluded by the Revenue Officer from his calculations as abnormal. Thus the following rents shall be considered abnormal :—

- (a) rents consisting of the land revenue, with or without a small additional payment as proprietary fee, unless the land revenue is high and the land poor ;
- (b) privileged rents paid by relations, friends, dependants or persons discharging religious duties ; and
- (c) rents unduly inflated by jealousy or special local or personal conditions of a transitory character, rents so exorbitant as to be no index of the real letting value of land and rents in which other factors such as mortgage money enter

The Revenue Officer shall scrutinize cash rents carefully in each village as it comes under inspection. He shall satisfy himself that they have been correctly recorded, and shall then decide what rents shall be eliminated as abnormal

Adjustments
to be made.

10. The Revenue Officer shall, from the rents remaining after elimination of abnormal rents, frame an estimate of landowners' net assets, subject to the following instructions :—

- (i) the provisions of rule 7 (a), (b), (c), (d), (e), (f) and (g) shall *mutatis mutandis* apply ;
- (ii) deduction shall be made, if necessary, for fallows or bad harvests ;

The amount of the deduction to be made in each case depends on the result of the local enquiries made by the Revenue Officer ;

- (iii) deduction shall be made for shortage in collection of rent where such shortage is not due to bad management.

Miscellaneous
income.

11. Should the landowners, whether they take rents in cash or in kind, also enjoy as such any income or dues from lands which have not been taken into account in the estimates framed under the preceding rules, the amount of such income or dues shall be added to the net assets.

Estimates of
true net
assets.

12. The final estimates of net assets based on, (a) rents in kind ; and (b) cash rent calculated in accordance with the preceding rules, shall be compared, and the Revenue Officer shall then arrive at a definite estimate of what are the true net assets of each estate or group of estates.

(b) the existing assessment, the suitability of its form to local circumstances and the fairness of its distribution over estates.

(c) changes in cultivation, population, means of irrigation and markets and communications.

(d) rainfall.

(e) prices and

(f) any factors affecting the general prosperity of the tract as an increase in water-logging.

Before the report is prepared, the leading agriculturists and organizations of landowners of the area concerned shall be consulted, so far as practicable, and it shall be noted in the report to what extent this has been done, and what opinions have been elicited.

14. The area under reassessment shall be divided into assessment circles as defined in clause (19) of section 3 of the Act. Assessment circles

15. (1) The Revenue Officer shall frame his proposals with respect to classes of soils, selected years, prices to be adopted and assessment circles in accordance with the provisions of rules 2, 3, 4 and 14 respectively, as soon as possible after the commencement of settlement operations. Publication of proposals.

(2) The Revenue Officer shall have an abstract of his proposals prepared and translated into the vernacular. Printed copies of this abstract shall be supplied by post to all *zaildars*, *safedposhes*, headmen and organizations of landowners of the area concerned and to non-official members of the District Board and elected members of the Punjab Legislative Council representing the said area. A period of thirty days from the date of posting shall be allowed within which they may file objections on all or any of the matters referred to in sub-rule (1) to the Revenue Officer.

(3) The Revenue Officer shall take such objections into consideration and forward them, with his views thereon, together with his proposals, through the Commissioner, for the orders of the Financial Commissioner.

16. Before preparing the report prescribed by sub-section (2) of section 50 of the Act, the Revenue Officer shall make a special inspection of each estate, and record an inspection note thereon. Special inspection of each estate.

- (b) the recognition in the revenue records of such distinctions of soil and class as are usually accompanied by marked differences of renting value.

Abnormal
rents.

9. All rents which are not true economic rents, and are not based on the prevailing rent-rate or the average rate actually paid on any class of land, shall be excluded by the Revenue Officer from his calculations as abnormal. Thus the following rents shall be considered abnormal:—

- (a) rents consisting of the land revenue, with or without a small additional payment as proprietary fee, unless the land revenue is high and the land poor;
- (b) privileged rents paid by relations, friends, dependants or persons discharging religious duties; and
- (c) rents unduly inflated by jealousy or special local or personal conditions of a transitory character, rents so exorbitant as to be no index of the real letting value of land and rents in which other factors such as mortgage money enter

The Revenue Officer shall scrutinize cash rents carefully in each village as it comes under inspection. He shall satisfy himself that they have been correctly recorded, and shall then decide what rents shall be eliminated as abnormal

Adjustments
to be made.

10. The Revenue Officer shall, from the rents remaining after elimination of abnormal rents, frame an estimate of landowners' net assets, subject to the following instructions:—

- (i) the provisions of rule 7 (a), (b), (c), (d), (e), (f) and (g) shall *mutatis mutandis* apply;
- (ii) deduction shall be made, if necessary, for fallows or bad harvests;

The amount of the deduction to be made in each case depends on the result of the local enquiries made by the Revenue Officer;

- (iii) deduction shall be made for shortage in collection of rent where such shortage is not due to bad management.

Miscellaneous
income.

11. Should the landowners, whether they take rents in cash or in kind, also enjoy as such any income or dues from lands which have not been taken into account in the estimates framed under the preceding rules, the amount of such income or dues shall be added to the net assets.

Estimate of
true net
assets.

12. The final estimates of net assets based on, (a) rents in kind, and (b) cash rent calculated in accordance with the preceding rules, shall be compared, and the Revenue Officer shall then arrive at a definite estimate of what are the true net assets of each estate or group of estates.

22. Large enhancements of land revenue on particular estates shall, if necessary, be mitigated by the imposition of the revised demand in a progressive form i.e., a portion of the increased demand shall be deferred for a period of years.

Revised Assessments.

23. (1) Before making or revising the distribution of a fixed assessment over the several holdings of an estate, the Revenue Officer shall enquire into the usage followed in the previous distribution, and, in deciding the method of the new distribution, he shall have regard to that usage and to the wishes of the landowners, so far as may be practicable and equitable.

Distribution of Assessment over Holdings.

(2) (a) The Revenue Officer shall then make an order setting forth the method of the former distribution, and the method by which the new distribution is to be made, and shall direct that a record of the new distribution be prepared, showing—

- (1) serial number of holding ;
- (2) landowner (with description) liable for the land revenue on each holding ;
- (3) area of holding, with such details as are necessary for the purposes of the distribution ;
- (4) rate or measure by which the new distribution is made ;
- (5) amount charged to each holding by former distribution ;
- (6) rates and cesses charged by a percentage on the land revenue payable by each holding by the former distribution ;
- (7) amount charged to each holding by the new distribution ; and
- (8) rates and cesses charged by a percentage on the land revenue payable by each holding by the new distribution ;

(b) Where the rent of tenancy is the whole or a share of the land revenue thereof, with or without an addition in money, kind or service, or where an occupancy tenant pays his rent by a cash rent on a recognized measure of area, or by a cash rent in gross on his tenancy, the tenancy and the result of proceedings, if any, taken under section 27 of the Punjab Tenancy Act, 1887, shall be shown in this record under the landowners' holding of which the tenancy is part, an additional entry showing the tenant's name being inserted between entries (2) and (3).

(c) Where there are superior and inferior landowners in the same estate, both classes of landowners shall be shown in the record under entry (2) ; and there shall be added after entry (8) any *malikana* due

to the superior landowner which is charged by a percentage on the land revenue; or, if part of the land revenue is payable to the superior landowners, details showing the amount so due to the superior landowners shall be shown under entry (7).

(3) The record thus made shall be published by delivering a copy thereof to the headman of the estate, and by posting another copy at a conspicuous place in or near the estate. A copy shall also be supplied to the patwari.

(4) If the assessment is in the form of rates chargeable according to the results of each year or harvest, the Assistant Collector, to whom the Revenue Officer may assign this business by order under section 12 of the Act, shall cause a record of the sum chargeable to each holding to be prepared for each year or harvest (as the case may be), giving the particulars [entries (5) and (6) excepted] set out in sub-rule (2), and shall publish it in the manner prescribed in sub-rule (3).

(c) *The principles on which exemption from assessment shall be allowed for improvements*

Exemption of land benefited by improvement from enhancement.

21. (1) When a masonry well is constructed at private expense or with the aid of a loan from Government, for purposes of irrigation, after the coming into force of these rules, the land which benefits from the well shall be exempted from liability to any such enhanced or additional assessment of land revenue as may be due to the existence of the well until the expiry of such period as may have been sanctioned at the previous settlement, reckoned from the harvest in which the well is first brought into use. The minimum period of exemption for the purpose of this rule shall be 20 years, but in any case where it is shown that such period is insufficient to repay the landowner twice the cost of the well out of the additional net assets due to the well, it may be extended to such longer period, not exceeding 40 years, as may be considered sufficient for that purpose. In cases where the Revenue Officer refuses to grant an exemption up to a period of 40 years, the aggrieved party shall have a right of appeal to the Commissioner.

(2) When a well, whether in use or out of use through disrepair, is repaired for the purpose of irrigation, an exemption from liability similar to that in sub-rule (1) may be given for such period, if any, not exceeding half the period specified in that sub-rule, as the officer granting the exemption may consider equitable, with reference to the amount of expenditure incurred on repairing the well and to the principle explained in sub-rule (1).

(3) When a tube-well is constructed at private expense or with the aid of a loan from Government for purposes of irrigation, the land which benefits from the well shall be exempted from liability to any such enhanced or additional assessment of land revenue as may be due to the existence of the well until the expiry of such period as may be considered by the Financial Commissioner to be sufficient to repay the

landowner twice the cost of the well out of the additional net assets due to the existence of the well. The minimum period of exemption for the purpose of this rule shall be twenty years for wells constructed within the five years immediately following the date on which these rules are finally confirmed. But after the expiry of five years the determination of such minimum period if any shall be reconsidered in the light of the experience gained during them.

4. During the period of exemption specified in sub-rule (1) to (3) the land revenue assessment of the land irrigated by the well or tube-well shall not exceed the amount which would have been assessed had no new well been constructed or no old well repaired, and in particular no fixed lump assessment shall be imposed on the well during the period of exemption.

(5) In tracts where there is practically no assessment on land in its unirrigated aspect the whole fixed assessment on well lands lying beyond the reach of river floods or canal water, i.e., *chahi-khalis* lands, shall be remitted during the period of exemption. In the case of *chahi-sailab* and *chahi-nahri* lands the rates of assessment imposed for the period of exemption shall be as follows:—

- (a) where the land irrigated by the well is situated within reach of river floods, the *sailab* rate or rates, fixed or fluctuating, as the case may be, as sanctioned for the time being; and
- (b) where it is within reach of canal water, the *nahri-khalis* rate or rates, fixed or fluctuating as the case may be, as sanctioned for the time being.

Where in the tracts mentioned above there is no fixed assessment on well-irrigated lands, no rates other than *sailab* or *nahri-khalis* rates as above shall be charged.

(6) For irrigation works other than wells or tube-wells, such as dams, reservoirs, water-cuts, minor canals or canal distributaries, constructed or repaired at private expense or with the aid of a loan from Government, exemptions similar to those allowed for wells under sub-rules (1) and (2) shall be granted. The period of such exemptions shall be determined in each case by the Revenue Officer, but no exemption for a period exceeding 10 years shall be granted without the sanction of the Commissioner, or exceeding 20 years without that of the Financial Commissioner.

(7) The periods of exemption specified in the foregoing sub-rules may, for sufficient reasons, be extended with the sanction of the Financial Commissioner.

24-A. (1) So much of the assessment on the land irrigated from a masonry or tube-well as is based on the profits of irrigation from such well shall be remitted—

Remission of revenue when wells fall out of use.

- (a) when the well ceases to be fit for use; and

(b) when irrigation from it is superseded by canal irrigation and, canal-advantage revenue or owner's rate has been imposed.

(2) A similar remission may be granted if the well, though still fit for use, has been out of use for four harvests, provided that no remission shall be given if the disuse of the well—

(a) occurs in the ordinary course of husbandry, the well being intended for use merely in seasons of drought; and

(b) is due to the introduction of canal irrigation and canal-advantage revenue or owner's rate has not been imposed.

NOTE—The revenue based on the profits of irrigation from the well shall ordinarily be assumed to be as follows—

- (i) where a lump sum has been imposed at the distribution of assessment on the well in addition to a non well rate—such lump sum
- (ii) where a lump sum, inclusive of a non well rate, has been imposed at the distribution of assessment—such lump sum, after deducting the equivalent of non-well rate, and
- (iii) where the distribution of the assessment has been by sod rates, the difference between the actual assessment of the area irrigated and the amount which would have been assessed on that area if it had not been irrigated

25. When settlement operations are in progress, the Revenue Officer shall obtain, through the Commissioner, the sanction of the Financial Commissioner with respect to the period of exemption for wells, other than tube-wells, for each assessment circle.

26. In every case in which the Revenue Officer grants exemption he shall give the landowner a certificate specifying the well or other work on account of which it is granted, the date of its construction or repair, the term for which the exemption will last, the land which would otherwise have been assessed at irrigated rates and the additional demand to be imposed at the end of the period of exemption. If the land is under fluctuating assessment, the certificate shall further state what the exemption will be under the system as sanctioned for the tract.

Grant of certificate at other times.

27. When a well, tube-well or other work is constructed or repaired during the currency of a settlement in such circumstances as to entitle the owner to an exemption from assessment at irrigated rates, the Revenue Officer shall make a special enquiry and grant a certificate of exemption in accordance with the provisions of rule 24. If the exemption is to take effect immediately, the certificate shall state, as nearly as may be, all the particulars mentioned in rule 26, and in addition shall show distinctly the amount of existing land revenue to be remitted. But, if the exemption is not to take effect till the next revision of assessment, no action need be taken unless the owner of the work in question applies for a certificate. In such a case, no entry shall be made as to the area subject to the concession or the amount of the exemption.

(2) The headmen of each estate shall be given a memorandum showing the future assessment of the estate, and any additional particulars deemed necessary.

(3) The harvest from which the new demand shall take effect shall be announced to the headmen and other persons interested, and shall be noted in the memorandum furnished to the headmen.

(e) *The manner in which the rate of incidence of the land revenue is to be calculated for the purpose of subsection (3) of section 51.*

31. (a) In assessment circles in which fixed assessment was imposed at the last previous assessment, the rate of incidence of such assessment shall be the rate obtained by dividing the total assessment, on cultivated land, as finally imposed by the Revenue Officer who made the assessment, by the cultivated area as ascertained by him for the purposes of assessment. The bill is cashed after tracing the credit of the money in the Tahsil Siah, the credit being shown in the schedule of unclassified items and the payment in Schedule F.

Case B (2) can be managed by payment bills as in the Case B (1) and by obtaining Remittance Transfer Receipts to another Treasury.

L. No. 670-Agr., dated 26th April 1924.

From The Under-Secretary to the Government of India, Department of Education, Health and Lands.

To The Secretary to Government, Punjab, Development Department.

SUBJECT — The issue of the use of *para* Remittance Transfer Receipts for remittances between Central Co-operative Banks and the Imperial Bank of India.

In reply to your letter No. 277-D (S), dated the 21st June 1927, and, with reference to Circular No. J-107-14, dated the 4th March 1914, from the then Department of Revenue and Agriculture, I am directed to say that the Government of India have had under consideration the question of extending the privilege of using Remittance Transfer Receipts at *para*, which was conferred upon co-operative societies in the letter cited, for the purpose of remittances between societies. It has been represented to the Government of India that most Central Co-operative Banks have opened accounts with the Imperial Banks of India, and that such banks suffer inconvenience in making remittances to that bank in cases where it has no branch at the place where their head-quarters are.

2. The Government of India consider that inconvenience of this kind is really felt at present. They have decided therefore to extend the existing system and to allow Central Co-operative Banks, which are situated at places where there is no branch of the Imperial Bank the privilege of free Remittance Transfer Receipts for their remittances to and from the Imperial Bank. This concession, however, is granted strictly on the understanding that it will be used for *bona fide* remittances only. The danger of a misuse of the concession is by no means imaginary, since it has been found that some co-operative societies have used the privilege which they already enjoy for the purpose of transacting bill business at low rates in competition with local shroffs and bankers. Should the extended privilege hereby announced be misused, in any such way, it would have to be withdrawn, and I am to ask that the Government of the Punjab will make this clear in informing the Central Co-operative Banks about it.

4. *Letter 1249—268-2, dated 16th August 1905, from the Secretary to the Government of India, Revenue and Agricultural Department, to the Secretary to the Government of Madras, Revenue Department.*

I AM directed to acknowledge the receipt of your letter No. 567 dated 17th June last, asking that societies registered under the Co-operative Credit Societies Act, X of 1904, may be allowed the privilege of depositing their strong boxes for safe custody in Government Treasuries.

2. The Government of India sanction the grant of the privilege in all cases in which the Local Government is satisfied that the society could not otherwise, except at unreasonable cost, arrange for the custody of its funds and papers either with a Government Savings Bank or with an approved banker, or in some other safe manner, on the condition that the concession may at any time be withdrawn should Government see fit.

3. I am to add that in considering whether there is room in the Treasury, it must be remembered that accommodation should be reserved for a currency chest, whenever the Commissioner of Paper Currency may desire to create one. Moreover, when the concession is given, the society should be required to use a strong box of moderate dimensions with a good lock, sealed with a proper seal and it should be warned that the Treasury staff must not be harassed by too frequent applications to open the Treasury. It is reasonable that the authorities of the society should be required to keep in their own office the money required for current needs, and only to deposit in the Treasury what will not often be wanted.

- (a) That the conditions specified in Government of India Department of Revenue and Agriculture, letter No 1249-268-2, dated the 16th August 1905, are observed.

- (b) That the cash box is deposited in double lock unless the Co-operative Bank specifically asks in writing that it should be kept in single lock.
- (c) That Government shall not be liable for any loss of any kind whether the cash box is kept in double or single lock.

V.—MISCELLANEOUS ORDERS.

1.—The position of District Officers is thus described in Government of India Resolution, dated 17th June 1914.

29. But while the movement must be essentially a popular one, District Officers. and while excessive official supervision must be avoided, it by no means follows that Government officials outside the circle of those directly connected with co-operation should hold aloof. It is true that the details of initiation and inspection should be left to the expert agency provided for the purpose, and it is no part of the duty of the District Officer to intervene in the internal administration of societies. But as co-operative societies are no longer isolated experiments outside the sphere of district work, and as beyond the material benefits which they offer they represent an influence closely connected with the welfare of the people and powerful now and in the future for good or evil, the District Officer cannot dissociate himself from the movement. On the contrary, a knowledge of co-operative principles and practice has now become as essential as a knowledge of revenue law, and it is his duty to maintain the closest touch with societies, not allowing them to languish through want of sympathy or to develop on undesirable lines through want of vigilance. Without in any way becoming an active propagandist, he should personally and not through his subordinates make himself acquainted with the progress of the movement in his district, encouraging and helping those who have formed themselves into societies, enlisting the interest and support of men of influence and wealth, and assisting with his advice those who seek to avail themselves of the benefits of co-operation. This in no way involves the officialising of co-operation, nor does it trench upon the essential principle that the movement, if it is to succeed, must be a popular one. Rather will it gain in strength by such encouragement and guidance, while the more closely the District Officer is in touch with societies the more surely will he find to his hand new and valuable agencies to help him in his daily work.

It is for Local Governments to consider to what extent and in what manner use can be made of societies in each province in district administration; how far they can afford a means of ascertaining the real public feeling of the district; how far they can by rendering voluntary aid assist in promoting primary education, rural sanitation and medical relief; in what manner they can be used in times of scarcity whether the train-

of a true system of

In these and other ways it may be found possible to utilize the co-operative organisation, and the movement should, if wisely directed, exercise an important influence in promoting the welfare of the people. But although it is still uncertain to what extent and in what manner societies may assist in the work of the district, there can be no doubt that a new factor in administration, which cannot be disregarded, has come into being, and that new duties and responsibilities have been thrown upon the District Officer.

2.—The Francis Fund.

The Francis Fund is due to the generosity of Mr. E. B. Francis, I.C.S., sometimes Settlement Officer, Ferozepore, who presented Rs. 16,000 to be devoted to the spread of co-operation amongst agriculturists in Ferozepore district. The income from the fund maintains two sub-inspectors who are engaged in propaganda work. They are additional to the staff maintained by the Punjab Co-operative Union. The following notifications explain the system of management :—

B. Francis, the author of the trust, the Lieutenant-Governor is hereby pleased, under the provisions of Sections 4 and 5 of the Charitable Endowments Act, 1890, and in modification of the above cited notifications, to direct that, with effect from the 21st of July 1914, the aforesaid two sums of eight thousand rupees each shall be vested as one sum of sixteen thousand rupees in the Accountant-General, Punjab, as Treasurer of Charitable Endowments, and that the following scheme shall be settled for the administration of the property :—

4.—Deposit of Teacher's Provident Funds.

Extract paragraphs from Punjab Government notification no. 8839-G., dated the 6th July 1926.

1. (4) "Interest" means the interest which is paid on a deposit at a Government Savings Bank or Co-operative Bank approved by the Registrar of Co-operative Societies under the rules in force for such institutions or on Government Securities

7 (1) The sums credited to the depositors monthly under rules 5 and 6 in the Provident Fund Ledger maintained by the school committee shall be paid duly into the Post Office Savings Bank or into a Co-operative Bank approved by the Registrar of Co-operative Societies. Such payments should, whenever possible, be made into the bank between the 1st and 4th of each month, in order that interest may accrue. The Bank Account for each individual contributor shall be kept separately in the name of the Manager of the school on behalf of the contributor and separate pass books should be issued in each case.

(2) Monies cannot be withdrawn from such bank except as provided in rules 9, 11 and 17.

9. The deposits and contributions, with interest thereon, at the credit of any teacher or such part of them as he may be entitled to, may, with the sanction of the Local Government or Controlling Officer, be withdrawn by the Committee from the Post Office Savings Bank or approved Co-operative Bank or Government Securities in the following cases.

14. Amounts credited or debited to the Provident Fund shall, on the same day, be posted into the Provident Fund Ledger, in Form B, appended, in full detail. The figures for column 8 of the Ledger must be calculated monthly and the net balance of each account entered in columns 8 and 9, but the figures in these columns should be compared once a year with the Savings Bank pass-book. Great care should, therefore, be taken to make the monthly calculations according to the rules in force in the Post Office or in the Co-operative Bank approved by the Registrar of Co-operative Societies, as the case may be. The Provident Fund Ledger should have separate pages for each month's transactions.

5.—Deposits by Court of Wards.

It has been ruled that it is not permissible to invest the funds of Ward's estates in shares in co-operative banks, whether urban and rural, or to deposit them (except for purposes of temporary convenience) in any bank. There is no objection to loans being made to co-operative credit societies on the security of first mortgages on immovable property, and such an investment is recommended as a peculiarly desirable method of dealing with the fund of the Ward's estates. All such proposed investments should be referred for orders to the Financial Commissioners.

Extract from the Proceedings of the Meeting of the Sanitary Board, Punjab, held at the office of the Financial Commissioners, Punjab, Ellerslie, Simla, on Friday, the 6th September 1916, at 11 a. m.

READ unofficial No. 723—901-1, dated 4th September 1916, from the Financial Commissioner, Punjab, forwarding letter No. 4303-S., from the Registrar, Co-operative Societies, and to the Senior Secretary to the Financial Commissioners, Punjab, regarding proposals for the above scheme.

The Sanitary Board will be prepared to treat contributions from the funds of the co-operative societies to the cost of sanitary works on the same footing as subscriptions from village and contributions from district funds; and to make grants to approved schemes of rural sanitation to an amount at least equal to the amount of such contributions or subscriptions so far as funds are available. The Sanitary Board will welcome such contributions to sanitary works from co-operative societies, and will respond to them liberally.

9.—Gratuities to Patwaris.

In Senior Secretary's letter No. 721—866-9, dated 7th September 1917, the Financial Commissioners have accorded approval to a proposal to grant honoraria to Patwaris who help in writing up the accounts of co-operative societies. The honorarium proposed must be approved by and must be paid through the Deputy Commissioner, and should not ordinarily exceed thirty rupees a year. The decision as to whether any or all of the sum offered by the society shall be accepted rests entirely with the Deputy Commissioner. All cases where such an honorarium is proposed should be reported together once a year for sanction of the Financial Commissioners under Article 74, Civil Service Regulations.

10.—Rewards to Patwaris for consolidation of holdings.

Memo No. 29394 (Rev.), dated the 24th November 1921

From—The Revenue Secretary to Government, Punjab,

To—The Senior Secretary to the Financial Commissioners, Punjab.

WHERE a co-operative society has been formed in a village for the consolidation of holdings, the Inspector or Sub-Inspector engaged upon this work may call upon the Patwari of the village to produce before him on the spot such records as may be required, and may inspect such records and take notes and extracts therefrom free of charge.

Patwaris and Kanungoes should give such assistance to the work of consolidation as may be required from them, provided that this does not cause detriment to their ordinary work.

Patwaris may, with the consent of the Collector in each case, accept a reward not exceeding Rs. 50, for each complete village consolidated and a proportionate reward for a portion of a village consolidated. Where the Consolidation of Holding Society desire to borrow the services of the village Patwari for this work the Collector may lend such services, provided that the society deposits beforehand such sum as the Collector may deem necessary to pay for a substitute. A Patwari whose services have thus been lent to a society is eligible for a reward under the above orders.

The power to sanction the rewards mentioned in the rule is delegated to the Collector.

Rule 16—" For the purposes of section 26 of the Act a copy of an entry in the book of a society may be certified by a certificate written at the foot of such copy, declaring that it is a true copy of such entry, and that the book containing the entry is still in the custody of the society, such certificate being dated and signed by the Secretary of the society or other officer approved by the Registrar."
